

BFT-PCELL-COMPACTA

180 DEG HARDWIRED PHOTOCELLS

Pair of adjustable photocells, designed to offer a high level of installation flexibility thanks to their compact size, the possibility to adjust the head by 90° horizontally, left and right (180° in total), and a wide input power supply range 12-33Vac and 15-35Vdc. 20 metre nominal range.

FEATURES

Flexibility: COMPACTA may use a wide input power supply range, 12-33Vac 50/60Hz and 15-35Vdc, making it usable in a vast number of installations. In addition, it may be wired to all the BFT control boards with test.

Maximum installation simplicity: the possibility of adjusting the infra-red head up to 90° both left and right (180° in total) means these photocells can be installed on walls or posts that are not aligned, thus saving time and obtaining a clean and seamless installation. On the vertical plane, optics are fixed, although the geometry allows recovering slight misalignments up to +/- 5°. Finally, once the correct angle of the optics is found, the cover locks to the base with a simple click.

TECHNICAL INFORMATION

- Supply voltage: 12 - 33Vac / 15 - 35Vdc
- Nominal Range: 20 m
- Horiz. adjustment: 180 °
- Degree of protection (IP): 44
- Interconnectivity: no

Imperial measurements

The data shown are for information purposes only.

- Supply voltage: 12 - 33Vac / 15 - 35Vdc
- Nominal Range | 65 ft
- Horiz. adjustment: 180 °
- Degree of protection (IP): 44
- Interconnectivity: no
