

## NOTE ON WIRING CONNECTION

- i** The electric lock/source/camera is not included in the package, you can purchase an electric lock which is suitable for actual requirement.
- i** In the standard delivery the system supports locks with Normally Open (N.O.) door unlocking method. It means that in the normal state the dry contact is opened so the lock is kept under constant closed state. If the unlocking push-button is pressed and the dry contact is changed to closed, then the lock is released.
- i** Please note that the 2P Short Pin is designed for programming the indoor monitor, the indoor monitor will be programmed to main monitor if you plug the 2P Short Pin in; however the indoor monitor will be programmed to extension monitor if the 2P Short Pin is pulled out. Setup ok, after power machine automatically detects, if it is in state machine work Set, need makes the machine to detect electric.

Indoor machine power with a built-in power or an external power optional. Please refer to actual control using. If the indoor machine with a built-in power source, applicable to wide voltage range(AC100V-240V). Please first pull out the AC power plug before installation of device(shown as below).

- i** Use and selection of wire, please refer to the following.(The actual effect and the quality of wire rod has the very big relations)

1. 4C ordinary unshielded and shielded wire connection mode:

2. 3C ordinary unshielded +video wire (75-3) connection mode:

3. CAT5 or CAT6 network cable connection mode: (Not recommended)

Unshielded network cable ( $\leq 20\text{m}$ )

Shielded network cable ( $\leq 40\text{m}$ )
